

I disagree with LPFM stations taking priority over the current FM translator service provided by K-LOVE in the Memphis, Tn. listening area. K-LOVE meets my families needs as well as those of my community by providing programs that are beneficial. If K-LOVE was displaced by a LPFM station, we could be without the programs and service that they provide. K-LOVE has become a model station in or community and serves the public interest by providing family friendly programming and information that is beneficial. They have made a positive impact on our community and would be sorely missed. Please do not place LPFM in a higher priority status than our K-LOVE FM translator.

Sincerely,
John W. Lowe
